About Me

I'm a junior fullstack developer with a creative background in art, languages, and event management. I value clarity, empathy, and aesthetics in design and code alike. I enjoy learning new technologies and crafting solutions that make digital experiences feel intuitive and meaningful. I'm eager to find a professional environment that would let me evolve, learn, and build great things.

Professional Experience

- 2017-2024 – Freelance Translator (translated various literary works, songs, and poems)
- 2016-2017 – Customer Care Agent (Arvato Bertelsmann, Berlin)
- 2014-2015 – Event Manager (Petersart Event Agency, Saint Petersburg)
- 2011-2015 – Independent Performance Artist

Education

- 2025 – Fullstack Web & App Development, WBS Coding School, Berlin
- 2024 – UX/UI Design and Frontend Programming, BITSchool, Berlin
- 2014-2015 – Industrial Design, Saint Petersburg State Marine University
- 2010-2014 – Linguistics and Translation, Saint Petersburg State University of Aerospace Instrumentation

Skills

JavaScript, React, Vite, HTML5, CSS3, Tailwind, Git, Figma, interactive prototypes, Node.js, Express, REST APIs, SQL/NoSQL Databases
